1. If any addition or extension and renovation is done in the school building after obtaining the building safety certificate, it should be done under the supervision of the technical guide/qualified Engineer and the certificate will have to be obtained again after the completion of the ongoing work in the school.
2. If the school building is affected by flood or if any walls/foundation sagging then the school management will be bound to make immediate arrangements to check the stability and safety of the school building.
3. This Building Safety Certificate cannot be used for the purpose of any court case.
